Education

Union College   Sep 2024 - Jun 2028

Bachelor of Science in Computer Engineering and Mathematics, Minor in Statistics   *Schenectady, NY*

- GPA: 3.95 | Honors: Dean's List
- Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Computer and Logic Design, Linear Algebra, Discrete Mathematics, Multivariable Calculus.

Experience

Union Evolutionary Robotics Lab   Mar 2025 - Jun 2025

Undergraduate Researcher   *Schenectady, NY*

- Improved simulation accuracy by 20% through implementing dynamic models of soft robotic systems in Python with DiffTaichi and Genesis physics simulators.
- Eliminated a high-severity security vulnerability from the automatic differentiation system by replacing a high-risk "exec" call with a secure decorator pattern.

Union College   Jan 2025 - Jun 2025

Information Technology Support Specialist   *Schenectady, NY*

- Diagnosed, resolved and documented software and hardware issues as the first point of contact for technical assistance using the ACE method.
- Developed and maintained a small repository of PowerShell/Bash scripts to automate repetitive diagnostic tasks, reducing manual troubleshooting time by 28% and ensured consistent data collection for escalations.

Projects

Read-it | *React.js, JavaScript, Node.js, Express, PostgreSQL*   GitHub

- Engineered a full-stack book tracking application, using an Express.js RESTful API to manage user-generated reading lists and ratings stored in a PostgreSQL database.
- Developed a book recommendation engine using Scikit-learn's K-Means clustering to generate personalized suggestions based on users' reading list.

The Anvil | *React.js, JavaScript, Node.js, Express, PostgreSQL*   GitHub

- Built a full-stack productivity app using React, Express, and PostgreSQL that guides users through focused work sessions using the Pomodoro technique.
- Developed an AI-powered productivity coach by integrating the OpenAI GPT-4o API, offering users personalized strategies for enhancing focus and overcoming distractions.

Skills

Programming Languages: Python, Java, JavaScript, C/C++, SQL, HTML.

Frameworks: React, Node.js, Express.js, Bootstrap, TailwindCSS, jQuery, DiffTaichi, Genesis.

Tools & Libraries: Git/GitHub, PostgreSQL, Docker, SupaBase, Arduino, Sci-kit Learn.
